ORDER

LEWIS J. LIMAN, United States District Judge:

The Court *sua sponte* strikes the Defendants' letter at Dkt. No. 60. Defendants were invited to express their views regarding the case management plan and service on the individual defendants, including whether the individual defendants would waive any defects with respect to service. The letter both fails to answer certain of these questions and addresses—without making a motion for relief—other issues that are not before the Court and in a tone that is not appropriate for correspondence with the Court. Defendants shall have until 5:00 p.m. on December 14, 2021 to file a revised letter.

SO ORDERED.
